Osprey Men's Origin 3mm Full Length Wetsuit, Blue, M Tall UK

£59.99 4.3★

1. **Osprey Men's Osp M - Origin Shorty Wetsuit, Blue, 3XL UK** - Priced at £39.99 and rated 4.4★, this men's version is a great alternative if you're comfortable with a unisex fit. The stretchable neoprene material ensures excellent flexibility and comfort, ideal for those warm summer days on the water. While it might not fit every woman perfectly, it offers a similar level of warmth and buoyancy as the women's shorty. Choose this if you're looking for a budget-friendly option and don't mind stepping outside conventional sizing.

1. **Osprey Men's Osp Lng 5mm - Origin Blk Full Length Wetsuit, Black, XL UK** - At £84.99 with a 4.2★ rating, this full-length wetsuit offers superior thermal protection, making it a solid choice for colder UK waters, especially in early spring or late autumn. While it's on the pricier side and may feel bulkier than a shorty, it's perfect for those who want extra insulation. Opt for this if you plan on surfing in chillier conditions or want a wetsuit that can be used year-round.

1. **Osprey Men's Origin 3mm Full Length Wetsuit, Blue, M Tall UK** - Available for £59.99 and rated 4.3★, this wetsuit provides a great balance between warmth and flexibility. The 3mm thickness offers decent insulation for milder months while allowing for freedom of movement. It's a bit longer than the shorty, so it's more suitable for those who are looking for extra coverage without committing to a thicker suit. This is a fantastic choice for paddleboarding or kayaking in the summer when the water temperature is still pleasant.

1. **Osprey Men's Origin 3mm Full Length Wetsuit, Navy, XL UK** - Also priced at £59.99 with a 4.3★ rating, this option is quite similar to the previous one, offering a comfortable fit and good quality materials. The navy blue colour gives it a versatile look, perfect for different water sports. It's a bit more spacious, suited for those who prefer a looser fit. Choose this if you're looking for versatility and style on your water adventures without breaking the bank.

1. **Mojimdo Electric SUP Pump 20PSI with Light** - While not a wetsuit, this electric pump (£64.99, 4.5★) is an essential piece of gear for paddleboarders. With fast inflation and an auto-off feature, it ensures that you spend more time on the water and less time pumping up your board. It's a perfect companion if you're getting into paddleboarding and want to streamline your setup. Choose this if you want to complement your water sports experience with ease of use and convenience.

When considering these alternatives, it's essential to weigh your specific needs, such as the type of water sports you enjoy and the temperatures you'll be facing. Each option offers unique benefits that cater to different preferences and conditions.

Still Buy the Original If...

If you're specifically looking for a women's fit and prefer a shorty for warmer weather, the Osprey Women's Osp L - Origin Shorty Wetsuit remains the best choice. Its combination of comfort and flexibility makes it ideal for those sunny days on the UK's coastline.
